### Step 3: At the payment location

Tell the clerk the amount you want to LOAD, have the clerk scan the barcode and give them the amount of CASH you want deposited into your wagering account. There will be a processing fee of \$4.99 which will be deducted from the payment. The clerk will give you the barcode back for future use and a receipt. The net funds are available in your

wagering account almost immediately if done during the normal racing day. If done late at night after all racing has closed, the funds will be available the following race day.

*Note that PayNearMe PayCode barcodes are associated with a specific account. If you use PayNearMe to fund or pay other merchants, be sure to use the correct PayCode barcode for your wagering account. If ever in doubt, use the instructions above to create a new PayCode barcode slip to use to fund your wagering account.*

\*A next day rebate of 4% of the deposited amount will awarded when the deposit total is wagered. For example, if you make a PayNearMe deposit of \$200, the morning after the \$200 is wagered, a rebate/bonus of \$8 will be placed into your HorsePlayersBet account. Management reserves the right to deny deposit fee rebates and bonuses if deposits and withdrawals are done so in a revolving manner or if winning wagers are on horses that produce minus pool scenarios.
